At home in the world market

LASO products for passenger cars, commercial vehicles and buses have been established in the international aftermarket since 1965.

Top quality materials, technical know-how and ongoing development are our guarantee for high precision products.

LASO delivers exclusive brand quality to cater for the demands of the leading automotive repair specialist.

Worldwide, LASO stands for excellent quality and service.

Perfect production process

We have the latest technology and up to date knowledge at our disposal. This know – how is the foundation for a perfect production process.

Efficient solutions

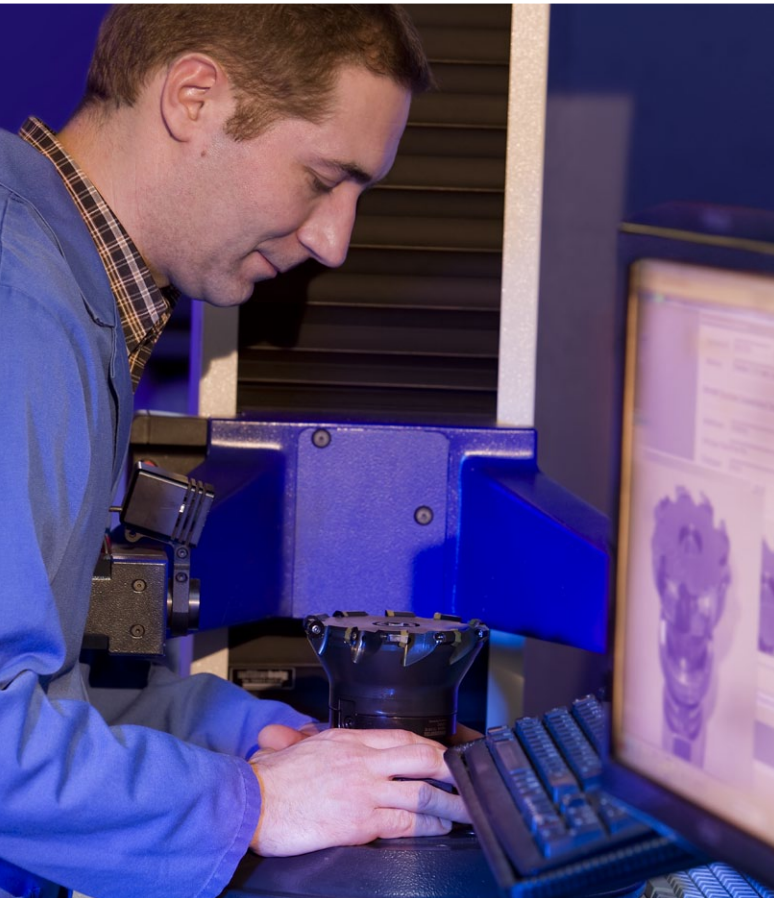

Computerised manufacturing centres are linked to the development centre, resulting in our precision parts being both economically & efficiently produced.

Quality assurance

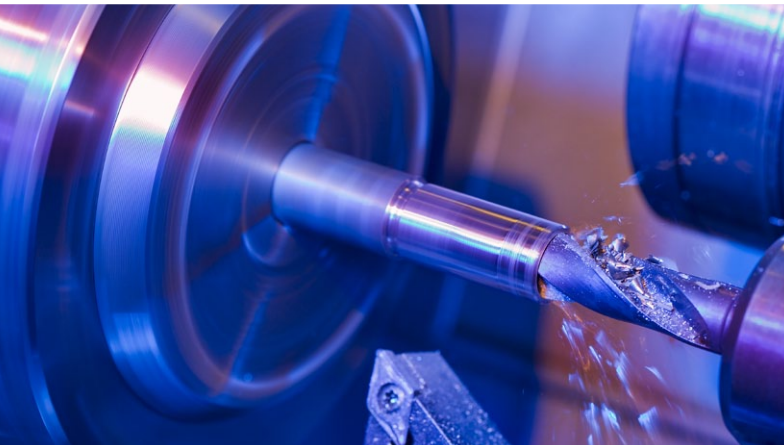

We test our parts according to the most modern test methodologies for durability, hardness, surface composition and form-compliance.

High quality – Worldwide

With Optimised marketing structures we are able to ensure that our high-precision LASO parts reach our clients across the globe at the right time.

Our quality products are the result of the drawing together of LASO 's Know-How. Equipment, production methodologies and testing.

LASO's tooldesign and production set the benchmark at a new peak.

Sensitive units are 100% conclusively tested on LASO measuring equipment.

In doing so, we ensure that only zero-defect parts leave our factory.
